

REWINDERS

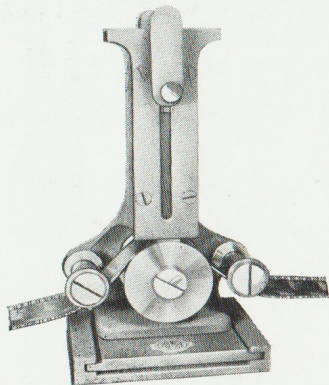

(16 mm.)

FILM MEASURER (16 mm.)

FILM WAXER (16 mm.)

FILM REWINDERS

Premier 16 mm. Rewinders meet the demand for a precision made article at a moderate price.

- ★ Machined iron castings throughout.
- ★ Smooth running heavy duty Gears totally enclosed with simple lubrication points.
- ★ Capacity up to 2,000 feet.
- ★ Polished oak baseboard.
- ★ As used in leading film libraries, editing rooms, both in this country and abroad.

FILM EDITOR (with both ends geared as illustrated)

£5 . 15 . 0

£5 . 5 . 0 (without baseboard)

REWINDER (with one geared and one auxiliary end)

£4 . 4 . 0

£3 . 15 . 0 (without baseboard)

FILM MEASURER

This measurer is beautifully designed and machined to a fine degree of accuracy.

- ★ The film path consists of two guide rollers and a spring tensioned sprocket roller.
- ★ Direct Counter up to 10,000 feet which can be instantly reset to zero by a thumbscrew.
- ★ Can be permanently fixed to rewind board.
- ★ Widely used in laboratories and libraries and indispensable to Film Societies and professionals.

£12 . 12 . 0

FILM WAXER

An invaluable piece of equipment to preclude the costs of process waxing, being a considerable improvement on previous types of portable waxers and similar in design to those used in leading cinema circuits.

- ★ Special wax strips ensure even distribution of wax over the perforations (either silent or sound film stock).
- ★ Oilite bearings for all rollers.
- ★ Film can be instantly removed for examination, splicing, etc. . . .
- ★ The whole unit slides into a channelled baseplate which can be permanently fixed to the rewind board.

PRECISION FILM JOINERS

STANDS & CABINETS

DE LUXE

DE LUXE MODEL

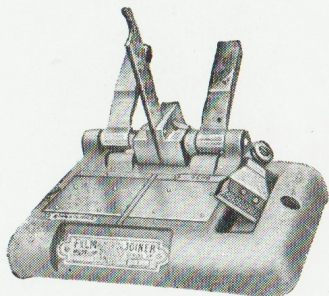

(16 mm. 8 mm.)

A superbly made joiner embodying every feature of our Professional 35 mm. de luxe Model combining absolute and constant accuracy in performance with maximum speed in operation.

- ★ A specially designed serrated dry scraper for use with safety film stock which roughens the overlap to ensure a proper weld.
- ★ Adjustable pressure springs to ensure an absolutely firm join.
- ★ Available in 2 models for a 3/32" positive or 1/16" negative overlap join.
- ★ Undoubtedly the finest precision joiner on the market as used by all leading libraries, laboratories and professionals.

£6 . 6 . 0

UNIVERSAL

UNIVERSAL MODEL

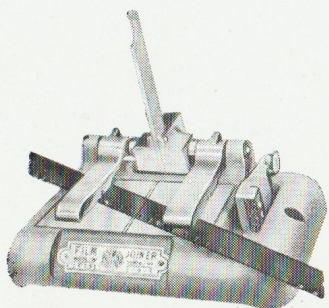

(16 mm. 9.5 mm. 8 mm.)

This precision engineered joiner is modelled on our 35 mm. Tri-acetate Joiner as used in modern cinemas and features:—

- ★ Special type locating pins found only on Premier joiners ensure a perfectly aligned 3/32" overlap join.
- ★ Ingenious and highly effective Combined Rotary Guillotine and serrated dry scraper. The latter of a design similar to that supplied with the de luxe model.
- ★ Applies automatic pressure and is absolutely rigid.
- ★ The cheapest precision joiner on the market manufactured by a firm who have specialised in such equipment for over 50 years.

£4 . 17 . 6

DIAGONAL

DIAGONAL MODEL

(16 mm. only)

Of the same design and precision as the Universal Model but producing a 3/32" Diagonal Join as favoured by many 16 mm. film users. The Diagonal join is of equal tensile strength and has the distinct advantage of passing through a Sound Head much less noticeably than a straight join.

It is really a matter of choice but all models are so made and designed to satisfy the most discerning user.

£4 . 17 . 6

TROLLEY STAND

A most attractively designed equipment that meets the needs of all projectionists who require a multi-purpose stand for static or portable use featuring:—

- ★ Absolute rigidity with adjustable feet to counteract floor unevenness.
- ★ Instant mobility with ball bearing castors.
- ★ Maximum portability as the unit can be folded up in a matter of seconds.
- ★ Adjustable tilt to the projector platform which accommodates all makes of projectors.
- ★ A really first class stand ideally suited to Educational Establishments, Mobile Cinemas . . . and the Home.

£14 . 14 . 0

(Stand is 4' 2" high and top 21"×13")

TROLLEY STAND

FILM CABINET

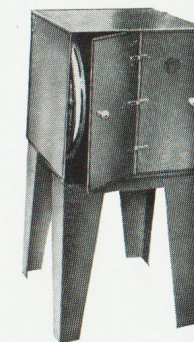

FILM & SPARES CABINET

A compact and well built cabinet fulfilling the projectionist's essential need for proper storage of personal films, film programmes, spares, records . . .

- ★ Partitioned off into sized compartments that can accommodate 9-1,600 feet, 3-800 feet and 6-400 feet Spool Cans.
- ★ The whole unit is contained by 2 spring doors and slightly tilted to prevent spools running out.
- ★ Ideal for Mobile use or the Home, and a most necessary adjunct to any equipment.

£6 . 0 . 0 (Complete as illustrated)

£5 . 5 . 0 (Without Stand)

PROJECTOR STAND

PROJECTOR STAND

A cleverly designed stand that folds up flat occupying a minimum of space and allowing for maximum portability.

- ★ The whole unit is compact and can be erected or folded by merely loosening four wing nuts.
- ★ Absolutely rigid.
- ★ Stand is 4' high and top 21"×13".
- ★ Projection platform which accommodates all makes of projectors and allows a clear projection beam.
- ★ Cheapest and best stand for all makes and sizes of projectors.
