

SPOOL

CABINETS

FOR

22" diameter and 17" diameter SPOOLS

- ★ All Metal Construction.
- ★ Only 6-Way Models available.

The two Cabinets illustrated above have been designed to take the larger diameter "Premier" Spools, i.e., 22" and 17" (22" Cabinets will actually take Spools up to 24" diameter).

The Cabinets are of similar construction to the Standard Model illustrated and described on the inside page. They are constructed in sheet metal and attractively finished in Grey Crinkle Enamel. Each compartment is numbered and Ivorine Tabs are fitted to enable the contents to be marked.

Stands are available to take these Cabinets, and are quoted for individual requirements.

Prices

17" CABINET
£8 8 0

22" CABINET
£12 12 0

SPOOL CABINETS

(35 m.m.)

De Luxe Model

the illustration shows each spool is contained in a separate holder. This holder is hinged at the bottom, and is so pivoted that when the spool is put in the compartment, and is released, the compartment automatically closes.

The Cabinet is substantially constructed in steel and finished in grey crystalline enamel. Each door is numbered and each compartment will take spools up to 15" diameter.

Ivory Tabs are fitted to each compartment to enable the operator to mark the contents.

Both 6-Way and 12-Way Models are available.

The Stand as shown in the illustration can be supplied at the extra cost indicated. It is substantially constructed of wrought iron, enamelled grey.

DE LUXE

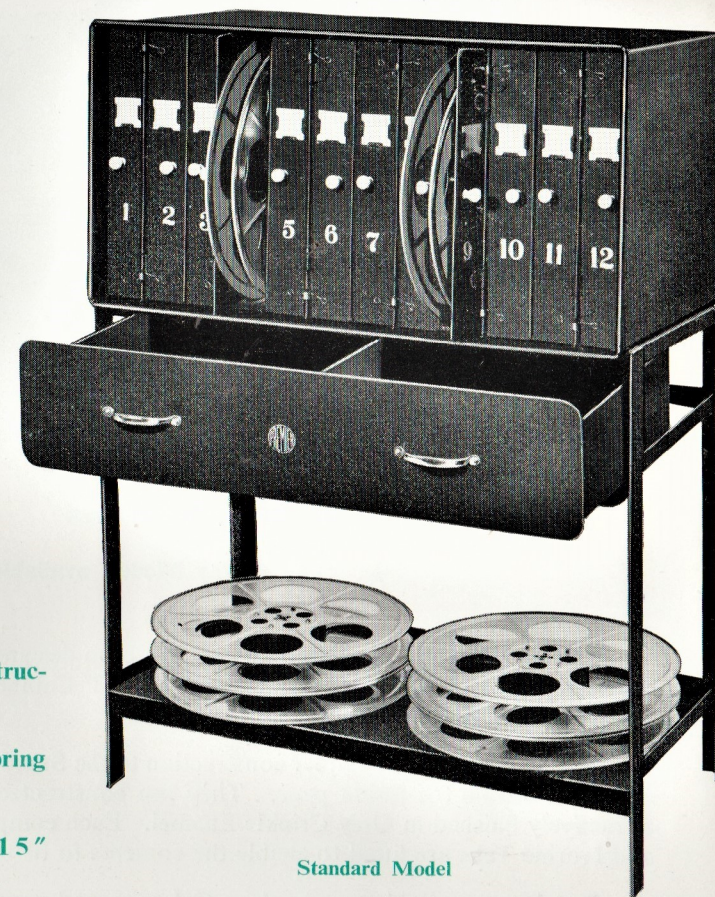

STANDARD

This "PREMIER" STANDARD SPOOL CABINET is substantially constructed in steel, and finished in Grey Crystalline Enamel. The 12-Way Cabinet as illustrated has each compartment separated from the next by a metal partition, and each individual compartment is fitted with a self-closing spring door.

Each door is numbered and the compartments will take any size spool up to 15" diameter. Ivorine tabs are fitted to each compartment to enable the operator to mark the contents.

Both 6-Way and 12-Way Models are available.

The Stand as illustrated is substantially constructed of wrought iron enamelled grey. It is so constructed that it tilts the Cabinet backwards preventing the possibility of the spools rolling out. The Stand as illustrated is fitted with a Tool Drawer and Shelf. The price of this is shown below.

Standard Model

★ All Metal construction.

★ Self-Closing Spring Doors.

★ Accommodates 15" diameter Spools.

MODEL	CABINET	STAND
